

June 30, 2020

Dear La Salle Family,

Thank you to all who participated in our recent School Reopening survey. The plans we are developing incorporate much of the feedback we have received from students, families and staff. Mitigating the spread of Coronavirus and maintaining a safe environment for the entire school community is our primary concern.

We know information and attitudes continue to change as we all work through this pandemic together, so we will be conducting a follow-up meeting via Zoom to answer many of your questions and update you on our current plans for the 2020-21 school year. Please watch for an invitation from Ms. Cobb in the coming days.

I continue to meet regularly with the Director of the St. Louis Department of Public Health (STL-DOH) and other school leaders in an effort to ensure our decisions regarding reopening are in alignment with both the Centers for Disease Control (CDC) and STL-DOH guidance. To that end, I am hoping to be able to share the entire school reopening document in the coming weeks. I wholeheartedly appreciate your continued support. Should you have any questions or concerns please feel free to contact me.

Continue to be well and stay safe,

LaShanda R. Boone
Head of School
