

March 13, 2020

Dear Parents/Guardians,

As recommendations continue to be made around the coronavirus (COVID-19), the following precautionary changes will take place at La Salle Middle School until further notice:

- All school-hosted public events are canceled.
- All field trips are canceled.
- No outside groups or visitors will be allowed in the Schools, except for parents/guardians and individuals who work with students as part of our day-to-day operations.
- After-school and extracurricular activities for students will continue as normal, including after-school tutoring and student programs offered through the School and or the Enrichment program.

As we continue to make decisions, we are following the recommendations outlined by the CDC for responding to COVID-19 and to date have no changes currently planned for the daily operation of the school. We are however developing contingency plans, including possible alternative learning plans and breakfast/lunch plans, should the situation change. We know any change to the daily operation of school can cause hardships and concerns among families who must juggle work and childcare, thus we are committed to making families aware of any changes as soon as we are able. In the meantime, thank you for your continued support.

Make it a Star weekend,

LaShanda R. Boone  
Head of School
